Rodger,

DX 123, which was marked at Jay Perin's deposition, was previously produced to us as SGI 104830 in black and white. DX 123, however, was a color copy of this document. Scientific Games' experts have stated they relied on a color version of this document. We would like to inspect all originals of this document, and the best available copies, that exist and are in either Scientific Games' or Morris Nichols' possession, custody and control, including any version(s) that Scientific Games' experts have reviewed and/or relied on.

Also, Mr. Keefe testified at his deposition that "multiple pictures of the edges" of the tickets depicted in Exhibit 2 of his rebuttal expert report were taken, that he reviewed all the pictures and picked the "best" ones to annex to his report. He further testified that those other photographs were stored on a digital camera maintained by your law firm. Please produce the additional photographs to us. Further, Mr. Keefe testified that he used lottery tickets of varying sizes in connection with the experiment concerning Exhibit 2 of his rebuttal expert report. Please produce to us all the tickets used by Mr. Keefe in connection with those experiments.

Regards,

Larissa

Larissa,

SGI104830 was produced to you in April, and DX123 was marked at Mr. Perin's deposition on September 30. You nevertheless waited until November 3 to request an inspection of the original document. Moreover, it is our understanding that a color copy of the document was produced to you in April, and a color copy of the document was provided to you at Mr. Perin's deposition.

Nevertheless, our client has located the original document in its files in Georgia, and is sending it to us by overnight delivery. We expect it to arrive at our offices tomorrow morning. Please let me know if you would like to inspect it here tomorrow afternoon.
